

2008 ENVIRONMENTAL MONITOR TRAINING PROGRAM AT THE PRAIRIE CREEK MINE

CANADIAN ZINC CORPORATION is pleased to announce the successful completion of the Environmental Monitor Training Program, conducted at the Prairie Creek mine site from August 27 to September 12, 2008.

Undertaken in cooperation with **Aurora College** and in financial partnership with the **NWT Mine Training Society**, the college accredited Environmental Monitor Training Program was initiated by Canadian Zinc Corporation (CZN) in an effort to begin preparing the mine area communities for the many long-term and well paying jobs that will be created as a result of the re-opening of the Prairie Creek silver, zinc, lead and copper mine.

A total of seven students, four from Fort Simpson and three from Nahanni Butte, were selected for the course.

STUDENTS

Tom Betsaka	Darrell Snider
Lucas Cui	Steve Vital
Brian Martineau	Morris Vital
Judy Sabourin	

CZN wishes to extend thanks to both Aurora College and the NWT Mine Training Society for the cooperation and assistance provided and also a very special thanks to the Acho Dene Koe, the Liidlii Kue First Nation and the Nahanni Butte Dene Band for the assistance provided in identifying candidates for the training program.

CZN also wishes to extend its congratulations to the seven students and Henry Wong, the course instructor, for their hard work and the commitment shown in making this training program a great success.
