

- Legend**
- Annieopsquotch mafic volcanics.
 - Harmsworth Steady basalt.
 - Mafic Intrusive
 - Felsic Intrusive
 - Sediments with mafic tuffs.
 - Mafic to intermediate tuffs, sediments
 - Intermediate to mafic tuffs
 - Minor Pyrophyllite
 - Intense Pyrophyllite
 - Altered Unit? Type Unknown
 - Sericite-silica-pyrite alteration zones
 - Felsic tuffs with ser-sil-py alteration
 - Felsic to intermediate tuffs
 - Iron formation (ferruginous sediments).
 - Massive Sulphides (projected to surface)
 - Baxter Pond Fault
 - thrust Fault (inferred)
 - Drillholes
 - 2017 Drillholes
